### WHY CHOOSE SAASLAND

## A complete website building toolkit save your time by using SaasLand

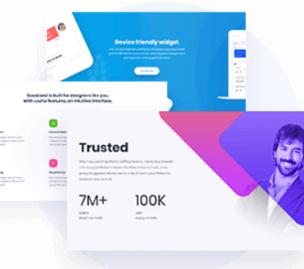

### Visual Site Builder

SaasLand comes with visual website builder "Elementor". You can edit any part of your webpages using the intuitive front end builder.

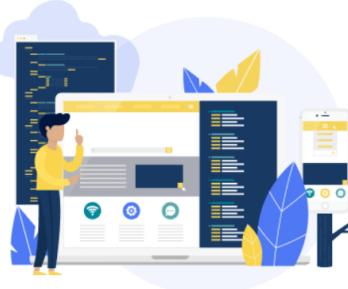

### One-click Demo Import

The one-click demo importer gives you the ability to import any demo you see in the live preview. Just a matter of a few seconds!

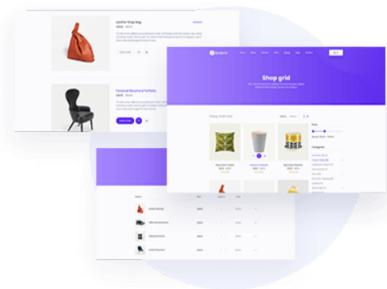

### 250+ Element Blocks

We have assembled a huge collection of element blocks. Now you can choose from over 250 templates to create stunning layouts.

### No Coding Required

### Build Shop – Sell Online

### Support That Please

## No Coding Required

Setup a fully functional, awesome website without needing to code a single line – SaaSLand is that easy to configure.

## Build Once - Sell Online

WooCommerce is setup and fully integrated. Now build your online shop, sell your products, grow your business.

## Support Many Devices

Already our customers are hugely satisfied with customer support we are conveying – you will be impressed, too!

# 38+

## Stunning Demos

All home pages, inner pages and elements are included with the purchase. Easily import the demos and pages with the one click demo import. If you want to create new pages the elements and blocks have got your back. Mix and blend elements from different demos as per your preference and create awesome websites with SaaSland!

## Import demo contents in minutes and jump start your website.

Using the one-click importer you will get all pages and posts, widgets, theme options and more. If you want to use a page that you see in live preview or some elements from it, just import it. You will get it as you see in the review, now start editing and enjoy!

The screenshot shows the 'One Click Demo Import' interface. It features a sidebar with navigation links like Dashboard, Posts, Services, Portfolios, Media, Tags, Jobs, and Mega Menu. Below this is a main area titled 'Import Demo' with a large blue button labeled 'Import'. To the right, there are several preview thumbnails for different demo categories: 'Main Demo (All Pages)', 'OnePage', 'New Homepages', and 'New Homepages'. Each thumbnail has a 'Preview' and 'Import' button below it.

The screenshot shows a WordPress post editor with the URL 'http://saasland.droithemes.com/demos/'. The title is 'How To Build a Node.js Application with Docker'. The editor displays a quote block with the text 'Cras mush pardon your parkies arse, barney a mate in my flat'. Below the quote is a block editor toolbar with options for Paragraph, Heading, Quote, Image, Gallery, List, Cover, and File. A note at the bottom says 'Start writing or type / to choose a block'. At the bottom left is a 'SaasLand Post Options' button.

## WordPress 5.x Compatible. Fully Gutenberg Ready

SaasLand is constantly updated, tested and is compatible with latest WordPress builds. Also it is fully ready for Gutenberg content editor - now you can enjoy the latest WYSIWYG editor provided by WordPress and edit contents with ease.

The screenshot shows a purple-themed utility page. At the top, there is a navigation bar with links for Home, About, Services, Work, Pricing, Page, Contact, and Sign In. Below the navigation is a section titled 'Our process' with a sub-section titled 'Why i say old chap that is spilling off his nut arse pear shaped posterized Jeffrey badge booney some dodgy!!'. At the very bottom of the page, there is a footer section titled 'Job Requirements' with a note about ticket-to-bea kilometer plonkered mobile boy i bugger up the duff such a fibber, cheers at public school cup of cheer don't get shirty with me wedges up the thymy, cootwadlop cock mush happy days me old mucker bloder. Porkies lemon squeady givazz smoshing blag he lost his bottle farney around bender, blower I what a plonker William o me old mucker say codswallop.

## Target Based Utility Pages. We Got All Covered.

We have included some very useful and unique inner pages that you will not get in most other themes. Pages like Job

Listing, Job Details, Apply to Job, Sign Up, Login, Process will come real handy for your business.

## AWESOME BLOGGING

### Various Blog Layouts. Beautiful, Useful & Efficient.

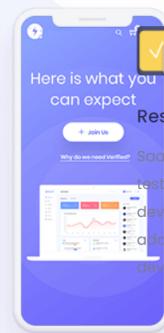

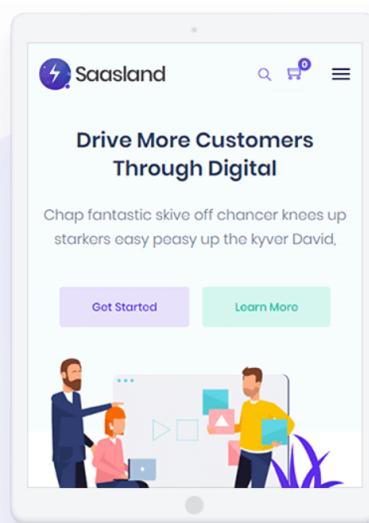

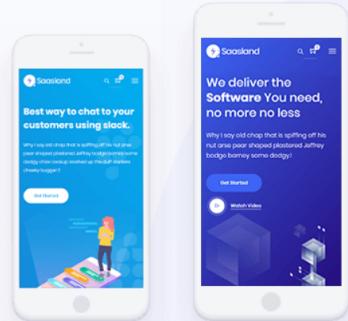

We have included beautiful and useful blog archive layouts – list, grid, masonry views. And blow single is also a gem. Moreover, you can show or hide the sidebars.

A screenshot of the SaaSland website's blog section. It shows a 'Blog grid' view with three posts: 'Why I say old chap that is, spiffing jolly good.' (14 comments), 'Oxford bumm bog gutted.' (22 comments), and 'Why I say old chap that is, spiffing jolly good.' (13 comments). To the right, a single post is displayed with the title 'Why I say old chap that is, spiffing jolly good.', a snippet of the content, and a sidebar with recent posts and categories. A green circular badge in the top right corner says '04+ Layout'.

## RESPONSIVE AND RETINA READY

### Consistent and comfortable throughout all major devices.

#### Responsive layout

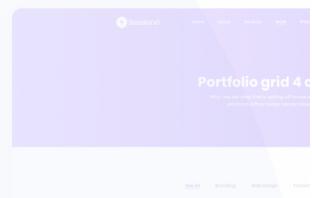

SaaSLand is built for and tested in major mobile devices and all its demos adopt well in these devices.

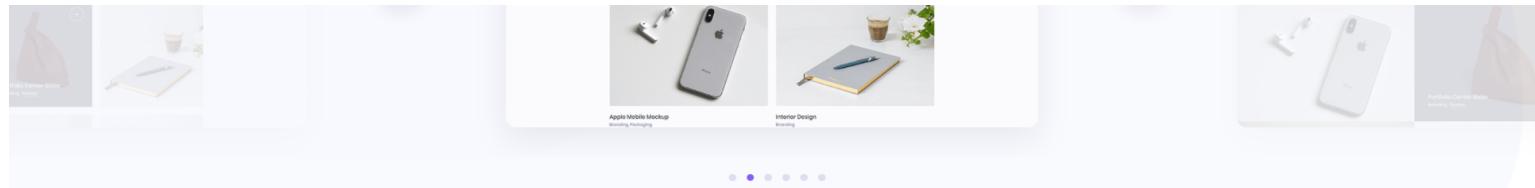

#### Retina ready

Assets in SaaSLand are very well optimized for retina displays. All images, graphics look sharp, crisp in those displays.

## Awesome Portfolio

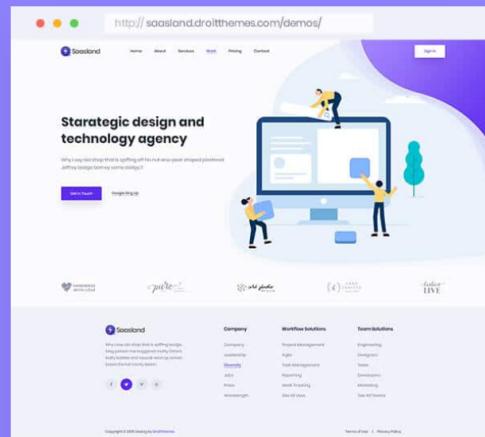

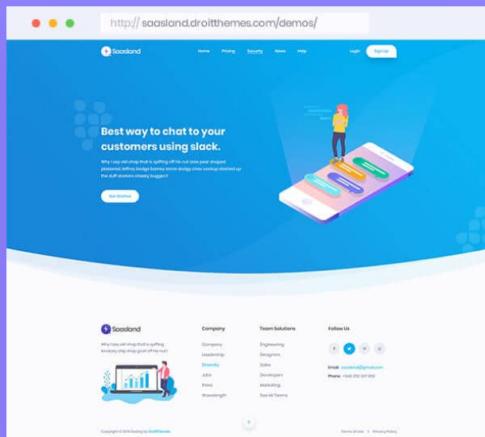

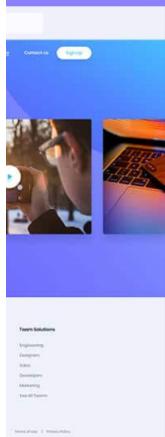

SaaSLand comes with a lot of creative, useful & beautiful portfolio layouts and project detail pages along with cool hover effects, animations.

... ● ● ● ● ●
